YARDS AT CARBON AND SWALWELL

LITTLE ITEMS OF LOCAL INTEREST

Miss Annabelle Ramsay returned home to Carbon on Friday evening and will spend a couple of weeks here before resuming her studies at Garbutt's Business College.

Miss Freda Ruff returned on Tuesday after spending the past couple of weeks at her home in Delia.

W. Leitch and P. Edwards motored to Calgary and other points on Sunday and returned on Monday.

The Carbon High School girls went to Beiseker Tuesday afternoon to play baseball and we understand that they lost to Beiseker with a score of 19-6.

Miss Mildred Sorbee was a Drumheller visitor on Tuesday.

Miss Lucy Ruff returned Monday after a short visit at her home in Delia.

Jack Hamshaw of Taber, arrived on Monday evening and is spending a few days in Carbon.

Miss Della Hoffort of Mandon, North Dakota, arrived on Monday and is visiting with her sister, Mrs. J. Rochester.

Mrs. G. Wise left Sunday for a visit to the Pacific coast.

It is expected that a number of the local golfers will go to Irricana on Sunday to participate in their tournament.

Mrs. Tabert was a Calgary visitor on Saturday and returned on Monday.

Send in any news items you may know of from time to time. We will be glad to publish them.

There will be no picture show this week on account of the Carbon Chautauqua performance that night.

The Carbon Elks are holding a big dance in the Farmers Exchange hall on Friday night immediately following the Chautauqua Play "The Patsy." A real good time has been promised and snappy music has been engaged to play for the dance.

Mr. and Mrs. Gus Bitz were Calgary visitors on Monday.

An item copied from the Drumheller Mail a couple of weeks ago and published in The Chronicle, stated that a daughter was born to Mr. and Mrs. E. Schell. This should have been to Mr. and Mrs. F. Schell.

J. A. MacDonald was a Calgary visitor on Monday. He returned the same day with a new Essex Sedan.

The Carbon Intermediate Baseball Club are holding a dance in the Farmers' Exchange hall on the last night of the Chautauqua and they invite everyone to attend.

Mr. and Mrs. A.F. McKibbin and daughter and Miss Kathleen Watkins motored to Champion on Sunday.

We understand that G. G. Peters has donated a sweater to the member of the Carbon Intermediate baseball team who secures the highest fielding average during this season.

"I doctor myself by the aid of medical books."

"Yes, and some day you'll die of a misprint."

SCHOOL REPORT

GRADE II—Albert Gieck, Ernest Fox, Jean Skerry, John Rogers, Cecil Trumbley, Harold Wise, Jack Hartsch, Marjorie Leitch, Jack Heath, Elmer Wolf.

GRADE IA—Isobel Gouldie, Jimmie Gouldie, Mae Moore, Elaine Torrance, Margaret Wheat, Irma Jacobs.

GRADE IB—Victor Kaehn, Billy Heath, Irene Greenier, Robert Ramsey, Lucille Lemay, Bobbie Hesselgrave.

OBITUARY

Word was received that Mrs. Grant had died at her home three miles West of Carbon on Monday morning. The late Mrs. Grant was 85 years of age and leaves to mourn her loss a daughter, Mrs. McCaig of Carbon.

Funeral arrangements are in the hands of Winter Brothers of Drumheller and interment will be made in a Calgary cemetery on Friday of this week.

FURTHER HIGHWAY CON- STRUCTION IS PLANNED

Orders for a first course of graveling on an additional 130 miles of highway in the central and northern sections of the province will be called during the coming week, it is announced by the Department of Public Works. Included in the roads on which will be started shortly are some 39 miles on the Athabasca highway from Edmonton to Clyde, 65 miles east from Fort Saskatchewan on the Edmonton-Lloydminster highway, and 23 miles from Wetaskiwin to Camrose.

This is the third series contracts called for under the Government's 1929 road building program as a result of which numerous construction and improvement projects are being undertaken. The total appropriation for main highway construction this year is \$1,500,000, while \$650,000 is available for secondary and district roads.

CREAM PRICES PAID AT CREAMERIES

For the week ending May 25, 1929, the following prices were reported paid per pound of butterfat in the several grades of cream and at points shown, according to information received by the Dairy Commissioner of the Department of Agriculture.

CHAUTAUQUA HAS GOOD PROGRAM THIS YEAR

The 1929 program of the Canadian Chautauqua is one of the best that has been on the circuit. This year the people of Carbon and district will have the opportunity of attending two plays, "The Patsy," by the Martin Erwin Players, which will be on the first night of Chautauqua, and the second Play "The Dilemma," which will be on the last evening, Tuesday, June 11th. There will also be two musical features; Marguerite Austin and her Dixie Broadcasters, on the second night, while on the third afternoon Neil Patterson and his Scotch Lassies will be the main program. Then there will be two lectures, the first of which will be by Howard S. Ross, who will occupy the platform on the second afternoon, while on the third evening Granville Jones will deliver an address on "The Philosophy of a Hill-Billy." There will also be a children's program on the last afternoon.

And don't forget the dance Friday evening after the performance.

WHEAT SEEDED AT RATE OF 30 ACRES PER HOUR

Seeding 145 acres of wheat in about five hours, neighbors of John Greig formed a bee Thursday and put in his crop for him, turning out with 120 head of horses and three tractors. The land was disced, harrowed and seeded in record time, the whole of the work being completed by four o'clock in the afternoon.

Mr. Greig has been ill for some time and has lately returned from Hanna hospital, and the kindness of his neighbors and friends in seeing to it that his crop has been seeded is much appreciated and will no doubt lift a load of anxiety from his mind.—Youngstown Plaindealer.

TO STOCK ALBERTA LAKES WITH PERCH

Arrangements will be made this season to stock Cheatemere Lake, east of Calgary, and McAllister Lake near Strathmore, with perch, it was announced by R. T. Rodd, Dominion Fisheries supervisor for Alberta. It is probable that these fish will also be introduced into Gull Lake and Clarke's Lake in the Lacombe district, the Chain Lakes near Ponoka and in other lakes in the locality of Hardisty. Mr. Rodd reports that some 50,000,000 stickle have been hatched in the Lesser Slave Lake, but stocking will also be carried on in a number of other lakes in the province.

EXTRA SPECIAL-- WHILE IT LASTS

We want every farmer in the district to know that we have purchased one THOUSAND GALLONS of RED BARN PAINT. Quality Guaranteed. We are going to let you share in our buying and sell you this paint at

\$1.70 Per Gallon

in 5 gallon tins or \$1.85 in one gallon cans.

We expect to have this stock by the 15th of June. Come Early. This will not last long at our prices. REMEMBER, every gallon is absolutely guaranteed.

DO NOT FORGET, WHEN YOU WANT A GAS OR ELECTRIC RANGE, WE HAVE THE BEST.

FREE DEMONSTRATION OF MAYTAG WASHERS. The world's best washer. Our demonstration will prove this. On our PAYMENT PLAN every woman in Carbon and district should have one.

The Charter of Anglo-Saxon Liberties

When King John, of England, placed his seal upon that historic document Magna Charta, on June 15, 1215, the date went into history as that of the "greatest of all events in the political development of modern freedom."

Nearly 700 years after the signing of the Great Charter of Liberty, a movement which had its inception in the United States gave birth to the International Magna Charta Day Association, with headquarters at St. Paul, Minn. The main objective of this organization is to have June 15 of each year observed as "Magna Charta Day," or "Inter-Dependence Day," in all the English-speaking nations of the world.

Observance of the day and of the charter which is the common heritage of these English-speaking nations is urged by the Association as an expression of the recognition of the common tie that binds these nations and the common debt they owe to those responsible for the Great Charter which is the foundation of modern ideals of liberty. The Association urges observance of the day also as a means of cementing the friendship and promoting mutual understanding between these nations which, speaking the same language, and having the same ideals, are acknowledged to be the greatest forces extant for permanent world peace. Magna Charta provides that basis of unity which these nations can commemorate. Its signing was an epoch-making incident in their common history concerning which no clash of opinion is possible. One American commentator says: "The yearly observance of Magna Charta Day not only helps to keep vibrant this Anglo-Saxon International Good Will but it serves to set out in sharp relief a wholesome example to the wide world."

The alternative title, "Inter-Dependence Day" itself is an acknowledgment that American ideals of freedom have the same fundamental basis as those of the British Nations, including Canada, and it is interesting to note that since the Association first was organized, the Day is observed annually in the United States, Canada, Newfoundland, the British Isles, Australia, New Zealand and South Africa. That is, the nations which trace their laws back to the historic document forced upon King John by the Barons of England, join in remembrance of the freedom it has conferred upon all. Says J. W. Hamilton, Founder-Secretary of the Association: "More and more it has become the Inter-Dependence Day of the English-speaking countries, as men have come to understand the Inter-racial kindness its recognition indicates."

"The thought is American-born, a gesture of deference to the acknowledged fount of freedom, and a tender of goodwill to other English-speaking lands of the earth."

The Day is not observed as a legal holiday, but as one of remembrance. Teachers in the public schools, wherever the Day is observed, emphasize the significance of Magna Charta to their pupils, and explain its significance in the lives of all residents of English-speaking countries. In many places, too, it is supplemented by setting aside the nearest Sunday to June 15, as "Magna Charta Sunday" on which by pulpit reference or Sunday School lesson the goodwill which is the central feature of the observance of the Day is given prominence. It might as well be the basis of a valuable lesson in British ideals for the cosmopolitan people of Canada—and for that reason it is interesting to note that Canada as a nation has endorsed the idea of Magna Charta Day.

Briefly stated, Magna Charta established trial by jury, restrained the Crown from using harsh and arbitrary methods of raising money, virtually placed control of taxation in the hands of the people, gave protection to minors and widows, established uniform weights and measures, limited fines and protected merchants, established the law of evidence, and, generally, assured the rights and freedom of the subject. These are the most important features of that charter which occupies so conspicuous a place in history and which established the supremacy of the law of England as the controlling power over the people.

The 39th article of the charter which is the basis of jury trial, declares "no man shall be taken, or imprisoned, or outlawed, or banished except by the lawful judgment of his peers." Another short article is significant of the desire for justice for all. In it, the King declared: "To no one will we sell, to no one will we refuse or delay, right or justice."

Waterton Lakes Famous For Trout

Excellent fishing may be enjoyed in the National Parks of Canada, especially in the Waterton Lakes Park, Alberta, which is famous for its trout. Specimens of trout weighing as much as fifty pounds have been taken from Waterton Lakes.

Irrigation Cost Runs Into Millions

Construction cost of 10 major irrigation projects now operating in Southern Alberta amount to about \$31,800,000, or an average cost of approximately \$31 per acre for the area or slightly more than one million acres.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Telephones In Canada

Dominion Is Served By 2,462 Separate Systems

There are 2,462 telephone systems in Canada. Five of these are government owned, Alberta having two, and Ontario, Manitoba and Saskatchewan one each. Municipal systems number 138, of which 123 are in Ontario. There are 496 private company systems, mainly in Ontario and Quebec, and 1,552 co-operative, of which 1,180 are in Saskatchewan. In addition, there are 169 private and 102 partnership systems. The number of telephones installed totalled 1,259,987, when a recent compilation was made, the estimated number of conversations made in one year totalled 2,108,400,000, including 31,400,000 long distance calls.

ST. VITUS DANCE

A Disease Of the Nerves Which Must Be Treated Through the Blood

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble to be successful is through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe forms of this trouble, because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of the value of Dr. Williams' Pink Pills in cases of this kind we have the statement of Mrs. William Stend, Warton, Ont., who says:—"My eldest girl at the age of nine years suffered from an attack of whooping cough which left her very weak, and finally developed into a severe attack of St. Vitus dance. She was under a doctor's care, but with no beneficial results. We also tried other treatment, but with no better results. To make matters worse, she was taken down with measles. Again the doctor was called in, as she became so weak, and her limbs so trembly that we had to take her about in a little hand wagon. I thought a change of air and scene might help her, so we sent her by boat to Port McNicoll, a distance of about a hundred miles. She seemed to improve while there, but as soon as she came home her strength was gone again. I took her to another doctor, but with no better results. I was distracted to see how helpless she was becoming, so decided to give Dr. Williams' Pink Pills a trial. I got six boxes, and they did what neither doctors nor other remedies had even started to do. They built her up completely; the St. Vitus dance disappeared, she has no sign of weakness and can run and play with the other girls, a thing she could not even try to do for about eighteen months. She walks to and from school, a distance of about a mile, which, of course, is proof of her present good health. I have much to praise Dr. Williams' Pink Pills for, and always recommend them in all cases of weakness." You can get these pills from any medicine dealer or by mail at 50c, a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wheat Acreage

It is estimated that nearly 25,000,000 acres will be sown to wheat in Canada this year. Last year we had 24,114,546 acres sown to wheat, and the total production was 533,571,000 bushels, an average of 22.1 bushels per acre.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Motion Pictures Of Northern Scenes

Arriving at The Pas, Captain Charles Sutton, pilot and party have completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Fort Churchill. Motion pictures of the northern scenes and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

Columbia Ice Fields

The melting waters from the Columbia ice-fields in Jasper National Park feed the sources of three of the largest and most historic rivers in the Canadian West—the Athabaska, the Saskatchewan, and the Columbia, which flow into three oceans.

For sunburn—apply Minard's Liniment.

W. N. U. 1738

Good Friend To Trappers

Radio Makes Life In Northern Wilds Less Lonely

The trapper's life in the wilds of northern and central British Columbia is not the lonely existence it used to be, for the radio is keeping the isolated cabin homes of these forest nomads closely in touch with the world's activities.

The radio has been a wonderful boon to the Canadian trapper and only the lowliest of them have not equipped themselves with radio sets. Indeed, owing to the distance to be covered and the various technical difficulties to be overcome to obtain satisfactory reception, most of them have bought powerful sets. No longer does the trapper find that nights are made for sleep alone. After following the trapline all day the modern trapper spends the evenings in his cabin smoking his pipe and listening to the news of the day and the orchestra broadcasts from hundreds of miles away.

Uniform Prize Ribbons

Uniformity In Color Is Agreed Upon For Fairs and Exhibitions

The Canadian National Exhibition, Toronto, has informed the Canadian Association of Exhibitions that it is willing to co-operate with the association's suggestions for uniformity of color in prize ribbon awards throughout Canada.

Hereafter at all fairs and exhibitions under the jurisdiction of the association first prize will be denoted by red, second by blue, third by white, fourth by yellow, fifth by green, and sixth by pink. Sweepstakes winners will be awarded the red, white and blue combination and the grand champions red and blue.

Much confusion has resulted in past years at fairs and exhibitions by the failure to adopt a standard system of colors with regard to awards.

Settlers For Alberta

Quite a few new settlers from the United States have arrived in the Tilley, Alta., district during the past two weeks and several families have also come into the Brooks area to take up farms in the Rainier district. The details in all cases are being arranged through the Canadian Pacific's Department of Natural Resources.

Excuse Still Good

Office boy—"I'd like a holiday this afternoon, sir. My grandmother is dead, sir."

Boss—"But didn't I give you an afternoon off a month ago because your grandmother was dead?"

Office Boy—"Yes, sir—she is still dead, sir."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Aspirin is a Trademark Registered in Canada

Marble From the North

Northern Manitoba Stone To Be Used On Office Building In Montreal

Native marble, quarried in Northern Manitoba, along the Hudson Bay Railway, may soon replace marble from Italy. "Manville," as the Canadian product is called, is being used extensively in the construction of the new head office building of the Sun Life Assurance Company, Montreal. Shipments were recently sent from The Pas by the Canadian National Railways. The northern marble is of fine texture, hard but not unduly so, and can take a beautiful polish and a sharp aris.

Tennis and Golf

Players everywhere use Minard's to ease sore and tired feet.

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

AGREEMENT IS REACHED ON REPARATIONS

Paris.—The German experts and their creditors came to an agreement on revised reparation annuities as proposed by Chairman Owen D. Young.

These annuities average 2,050,000,000 gold marks (about \$492,000,000) for thirty-seven years; 1,700,000,000 marks (\$108,000,000) for twenty-one years, and 900,000,000 marks (216,000,000) for the final year.

Under the agreement as concluded, these annuities will run from September next, instead of from April 1 last, as originally calculated. The Dawes plan of payments will meanwhile continue in force.

The situation was explained by Thos. W. Lamont, United States representative, as follows:

"Both creditor and German experts have heretofore declared themselves willing to accept the annuity figure of 2,500,000,000 marks as suggested by the chairman, although a difference existed on the question of interpretation.

"This difference has now been removed and a common basis for interpretation acceptable to both the creditors and to Germany has been found, subject, however, to agreement on the outstanding conditions which still remain for discussion and settlement."

It was further explained this agreement was no one's victory, for both Germans and creditors gave way to make it possible.

The general opinion of the experts was that a most important step had been taken toward final elimination of the Great War. There was no disposition to cry victory because there remained a number of knotty points among German conditions and allied reservations, any one of which if not satisfactorily disposed of might make final agreement impossible.

Grain Buyers Organize

Will Function Along Lines Recommended By Grain Enquiry

Saskatoon, Sask. Grain buyers of Western Canada have an organization under formation which will be known as the Grain Buyers' Service Bureau, it was announced here. It will be managed by an executive committee consisting of a number of active buyers in the West. The organization will function along the lines recommended by the Royal Grain Enquiry during the sittings in Saskatchewan last winter and is aimed to raise the standard of grain buyers considerably during the next few years.

An employment bureau will be handled in connection with the organization to assist its members in securing employment. At present the organization has a large membership in Northern Saskatchewan, and by fall a 100 per cent. membership in Western Canada is expected. Further particulars of the body are under preparation and are expected to be completed within a few days.

Want Chair Of Music

Saskatoon.—A discussion regarding the desirability of a chair of music at the various provincial universities, was an outstanding item at the Inter-Provincial Musical Festival Conference, held here, The Conference, which was attended by officers and delegates from the associations of the four western provinces, expressed the hope that the authorities concerned would take early action.

Y.W.C.A. Convention

Toronto.—Many eastern delegates will attend the National Young Women's Christian Association convention at Banff, Alta., June 4 to 10. Many delegates will go from Montreal and Toronto.

Fire Destroys Lumber Mill

New Westminster, B.C.—Fire of unknown origin destroyed the planing mill plant of the Brunette Lumber Company at Sapperton, near here, with an estimated loss of \$100,000.

Amended Bill Is Passed By Committee

Would Make Divorce Much Easier For Deserted Wives

Ottawa.—An amendment to the bill respecting the domicile of married women, although opposed by a large section of the house, passed when Parliament went into committee to consider the bill. The amendment makes it possible for a woman, deserted by her husband and left living alone for two years, to establish her domicile in any province of Canada where a divorce court exists for the purpose of obtaining divorce.

The bill, as amended, passed the committee stage and now stands for third reading. The amendment was passed by a vote of 36 to 28.

During the debate, Hon. Ernest Lapointe, minister of justice, declared that conditions in Canada would be worse than in Reno if the bill as amended became law. In Reno, a person desiring to obtain a divorce was required to wait three months before taking proceedings. Under the bill before the house, such persons could go to a province where a divorce court existed and begin proceedings immediately.

Hon. R. B. Bennett, Conservative leader, pointed out that a woman wishing to obtain a divorce must establish her domicile to the satisfaction of the court.

Working For World Peace

Saskatchewan Will Hold Provincial Conference On June 28, At Saskatoon

Saskatoon.—With a dominion peace conference as objective, provincial conferences are being organized, Saskatchewan joining in the movement by arranging a gathering at the University of Saskatchewan, on June 28. This was decided at a meeting called by Mrs. H. Johnston, president of the United Farm Women of Saskatchewan, and attended by representatives from all organizations in the province working for world peace. The date was chosen to accommodate the large number who will be in Saskatoon for rural women's conventions covering not only the province but the whole of the Dominion, represented in the Women's Institutes.

Saskatchewan Men In Marathon Swim

Two Have Entered Names In Fourth Wrigley Event

Saskatoon, Sask. Saskatoon will be entered in the fourth Wrigley swim marathon to be held in connection with the Toronto exhibition, on August 28. Saskatoon's entry in this world-famous event will be Jack Smyth, of 211 Sixth Street, who has already forwarded his entry to the officials at Toronto. Prince Albert will be represented in the same event by H. Houghton. Smyth and Houghton will train at Prince Albert National Park. They intend establishing training quarters there at once.

Casualty List Heavy

Manila. The death toll in the typhoon in Southern Leyte province was reported at 112 as communication with that section was re-established. First reports of the storm received here gave the number of deaths as ten. Some of the towns in the typhoon area still were isolated when the casualty list was completed.

Will Remain In Force

Victoria. British Columbia's tax on non-royalty paying exported logs, declared ultra vires by Chief Justice Aulay Morrison, of the Supreme Court, will remain in force until the judgment has been appealed by the provincial government as a result of arrangements reached between the province and the Dominion government, it was announced.

Board Of Conciliation

Ottawa. A board of conciliation under the Industrial Disputes Investigation Act has been established by Hon. Peter Heenan, minister of labor, to deal with a dispute between the Canadian National Railways and its firemen and engineers, members of the Brotherhood of Locomotive Firemen and Engineers.

WILL PILOT GIANT DIRIGIBLE

Major G. H. Scott, chosen by the British government to pilot the great R-100 on its maiden voyage to Canada.

A Reciprocal Visit

Australians Invite Canadian Boys To Make Return Tour

Victoria.—"We are leaving Canada with the hope that a reciprocal visit to Australia will be arranged for Canadian boys," Major John J. Simons, leader of the Young Australia League, stated prior to embarking on the liner "Aorangi" homeward bound.

"We have had a wonderful tour, and its success has greatly exceeded our expectations," he added.

The aim of the League in fostering these tours, Major Simons said, was to create better understanding between the English-speaking peoples of the world, and in this, he thought, the League had been in a large measure successful.

Salmon Treaty Approved

Committee Evenly Divided and Chairman Voted In Favor

Ottawa. On the casting vote of the chairman, William Duff, Liberal, Antigonish-Guysboro, the marine and fisheries committee of the House of Commons approved the Canada-United States sockeye salmon fisheries treaty. The convention was signed at Washington on March 27 last.

When the division was called, ten members of the committee voted against the pact and ten in favor, with the vote a tie, Mr. Duff, as chairman, then voted for the treaty.

Sewer Gas Explosion Causes Much Damage

One Person Believed Fatally Injured When Blast Rocks Ottawa

Ottawa.—Explosions of sewer gas in four parts of the city caused probably fatal injuries to one and hurt a number of others, at the same time destroying considerable property where the blasts were most severe.

There was panic in several sections when the booming of the explosions, accompanied by leaping pillars of flame and water, shook dwellings and rattled the windows of houses and office buildings. Women and children ran screaming from their homes.

In the streets, man-hole covers were thrown into the air a height of 50 or 60 feet. Confusion reigned. Fire alarms brought apparatus to scout fires, and patrol where there was likelihood of any outbreak.

St. Martin's Reformed Episcopal Church, built in 1876, and a landmark in the Sandy Hill district, was churned into wreckage as though it had been blasted by high explosives. Several stores in its vicinity were also destroyed, but persons in these latter buildings were not badly hurt.

Capital Invested In Canada

Canadians Own Over Half Of Securities In Dominion

Ottawa.—Canadians own from 55 per cent. to 65 per cent. of the securities of all enterprises located on Canadian soil. British investment in Canada at the beginning of 1928 was two-thirds that of United States investments in this country, or \$2,209,517,000, as compared with \$3,286,786,000.

The total British and foreign investment in Canada at the time noted amounted to \$5,712,943,000, the balance of \$245,740,000 coming from alien countries other than the United States.

Rebels Kill Ambassador

Constantinople.—Authoritative information has reached Angora from Afghanistan, stating that Afghan rebels captured and killed Gihlam Djalani Bey, Afghan ambassador to Turkey who was recalled by former King Amanullah to aid in the fight against the rebels. The report said that Gihlam was tortured to death.

Estimates Approved

Ottawa.—After a somewhat tempestuous passage, all estimates of the department of immigration have been finally approved by the supply committee of the House of Commons.

The Bull Dog Breed

Feet squarely planted on the deck of a Canada-bound liner, this young Britisher regally shrugs a left shoulder at the photographer. Member of an agricultural family coming forward under the auspices of the Department of Colonization and Development, Canadian Pacific Railway, he looks forward to a romping, wealthy life in Canada thanks to the Askey Scheme.

APPEAL IN TAX CASE IS WON BY WHEAT POOL

Ottawa.—Judgment was given by the exchequer court in favor of the Saskatchewan Wheat Producers, Limited, in their appeal from the assessments in the years 1925 and 1926, by the minister of national revenue, at \$154,143 and \$302,480 respectively.

These amounts represented deductions set aside for elevator and commercial reserves, and for operating expenses.

Mr. Justice Audette held that the deductions were merely temporary loans made by the farmers in the pool and were not gains or profits within the meaning of the act.

The judgment says in part:

"The deductions are so much less of the price, the proceeds of the farmer's grain, which he leaves, by agreement, in the hands of such associations for the purposes of handling his grain to his best advantage."

"Under all circumstances of the case, I find that the deductions in question are but temporary loans and advances made by the farmer, out of the price of his grain, to the pool capital for carrying on and acquiring elevators—the value thereof being credited to him as his own, having been his own all through under the true meaning of the provincial act and the contract made thereunder, and that the association acting in such fiduciary capacity for the grain growers, accounts for every cent it receives, and retains nothing that amounts to gain or profit."

Slaughter Of Tribesmen

2,000 Arabs Reported To Have Been Slain In Tribal Fight

London. A Jerusalem dispatch to the Express says desert runners brought to Beyrout word that 2,000 Arabs were slain at Elsarar, Nejd, in a battle between Ajmann and Jelah tribes.

The fight was attributed to a breach of desert hospitality.

The sheik of Ajmann visited and was entertained by the sheik of Jelah, but no sooner had he left the tent of his host than he was attacked.

The Ajmann tribesmen promptly retaliated and in the following conflicts both the chiefs and a thousand tribesmen on each side were reported to have been killed.

Speeding Up Construction

Saskatoon, Sask.—Every effort will be made to have the Melfort-Aberdeen branch of the Canadian National Railways completed this fall. W. A. Kingsland, general manager of Western Lines, said when he passed through the city on his way to Rosetown. He stated grain would be hauled over the line this year even if it were necessary to use skeleton tracks for small distances.

To Cross Continent In Buggy

Stockbridge, Mass. Russell Beckwith has no use for automobiles, so he will set out on a trip with a horse and buggy that will eventually take him to British Columbia. Mr. Beckwith has leased his farm here and leaves to visit a brother in Connecticut. He also will go to Pennsylvania for a visit before heading for British Columbia.

Five Italian Fliers Killed

Rome. The crew of five of a military bombing plane were killed when it crashed into Mount Orsaro near Corniglio, while on a night flight. The dead were two lieutenants, two under-officers, and a soldier mechanic. A sudden violent storm had come up while they were flying over the Apennine mountains.

Unemployed In Britain

London. The number of unemployed in Great Britain on May 13 totalled 1,104,700 persons, a decrease of 28,005 under the previous week, it was officially announced here. The number was also 13,690 below the unemployment figures of May 13, 1928.

A rather unique state of affairs has resulted in England with the final returns of the election. The Labor Party for the first time in history, has returned the largest number of members in the House, but they have failed to gain a majority over their Conservative opponents, who returned 254 members to Labor's 287 members, with nine doubtful seats. The Liberals have returned 57 members, but with this small number they will control the destinies of the country, for if Ramsay MacDonald is asked to form a government he will have to rely on the Liberals for support; and if the Conservatives and Liberals join they will defeat his measures at every turn.

However it is evident that the Liberals for the present, will ally with the Labor to defeat the Conservatives, for in some cases, if not many, where the Liberals had a very doubtful candidate they withdrew in favor of Labor and in such cases Liberals supported the Labor candidate.

This situation is going to leave Great Britain in exactly the same

state of affairs as Canada was placed in in 1926 when neither party succeeded in gaining a majority and the result was a new election.

But no matter what party is in power in the old country, the Liberals, although they represent only about one quarter of the voters, will decide all questions in the British Parliament until another election results.

VALUE OF KEEPING MOVING

Neither a business nor an individual can get on without keeping moving. Standing still brings stagnation. When you get in to the bath tub you make the water move pretty lively when you want the best results. The days are over when one could sit still and wait for business to show up. Business today doesn't show up; it has to be turned up. That is why advertising now plays so vital a part in merchandising. Advertising goes out, so to speak and coaxes men and women to become customers. One reason so many older concerns are finding themselves left behind is that they have ceased to go out vigorously after new business. Past success usually is dangerous since it is conducive to laziness, to slowing-up, to waiting for orders to come in. The individual may be likened to water in that, while stagnant, nothing worth while can be accomplished, whereas water directed into effective channels can turn dynamos sufficient to light a whole city. First take pains to make sure you are headed right; then take aim to go full steam ahead.

MINERAL SURVEY IN FAR NORTH

During the coming summer an in-

READ THE ADVERTISEMENTS !

vestigation of the natural and other resources of the Coppermine River mineral reserve on the Canadian Arctic coast will be undertaken by Major T. Burwash, exploratory engineer of the Department of the Interior. Special attention will be paid to determining the extent and value of deposits of copper which are understood to exist in this far northern section of the Northwest Territories.

**NORTHERN INDIAN RESERVES
OPENED FOR SETTLEMENT**

Keen interest is being shown in the announcement that an additional 20,000 acres of Indian lands in the Peace River district will shortly be opened for settlement. A public sale of several reserves located on the north side of the Peace River will be held at Fairview on Saturday June 15th. The largest single tract to be included is the Beaver Indian Reserve adjoining the town of Fairview and as this comprises some excellent farm land, bidding is expected to be brisk.

Snicklefritz ----

"Jock, Jock, there's a coo in the vegetable garden."

"All right, woman, dinna stan there makin' that fuss; hurry up and milk her before she gets oot."

"When did the prohibition law become effective?"

"Search me, I haven't been sober since."

No matter how wise a father may be, he never knows half so much as his own son.

A scotch farmer who had agreed to deliver 20 hens to the local market sent only 19 birds.

"Man, you're late with that last hen," expostulated the dealer, when the farmer brought it in late in the afternoon.

"Aye, aye, sir," agreed the Scotchman, "but ye see, she dina lay till this afternoon."

He—There's something dove-like about you.

Che—You flatterer.

He—Yes, you're pigeon-toed.

What would you think if I were to steal just one little kiss?

"What would you think of a burglar who had a chance to steal a hundred dollars and only took a penny?"

"Will you buy one of these little toy balloons? I'm selling them for charity."

"Sure I will!" said Mac, "how much shall I give you?"

"It's for charity, you know. Give till it hurts."

"All right, cutie, here's a dime."

"Mister, you sure do bruise easily."

Five-year-old Arthur awoke at three o'clock in the morning.

"Tell me a story, mother," he begged.

"Quiet, dear," she replied, "Daddy will be in soon and tell us both one."

Little Sister: "Bobbie, quick—I've dropped my tart under the table. See that Rover doesn't eat it!"

Bobby: "Don't worry—I have my foot on it."

Only the Scotch know how to hold their liquor.

Marriage is like stud poker. It costs only a few dollars to enter, but you chip in every few minutes thereafter.

TRAVELLING HEALTH CLINIC STARTS SEASON

The travelling clinic under the direction of the Alberta Department of Health which has rendered splendid services in many outlying sections of

the province during the past two years has started on its itinerary for the 1929 season during the past week. Some 34 centres will be visited and the doctors, dentists and nurses in attendance will follow up the work which has been done in advance by the inspection staff of public health nurses through rural schools. The clinic will again be in charge of Dr. R. T. Washburn, Medical Superintendent of the University Hospital. Dr. Margaret Owens, the first woman doctor employed by the Department of Health, is a member of the clinic staff and will pay particular attention to the treatment of women and children. Included in the party are also Dr. A. E. Haycock, Provincial Institutional Dentist; Dr. H. E. Gilchrist of the University of Alberta and four trained nurses.

POOL TERMINAL STORAGE TO BE INCREASED

The Alberta Wheat Pool is continually increasing its elevator system. On Monday of this week the contract was let, more than doubling the storage of the new Pool terminal at Vancouver. The number of Pool elevators in Alberta has been increased until the total in Alberta is close to the 400 mark.

The Pool's continual objective is to handle as much of its members' wheat as possible through Pool elevators. Each year sees an increase in the volume of Pool wheat handled through Pool facilities. This year the total is around 65 per cent.

The new Vancouver terminal was completed last fall and has storage facilities to handle 2,500,000 bushels of wheat. With the proposed additional storage of 3,750,000 this elevator will have a total capacity of 5,250,000 bushels. This will provide total terminal space owned and controlled by the Alberta Wheat Pool on the Pacific coast of 8,150,000 bushels.

A CITY FARMER'S SALE

A city man bought a farm, but found it did not give him the promised dividends he had hoped for, so he sold it. Here is a list he took to the printing office before the sale:

March 22nd, 1929. On my farm, 3 miles south of Kulm. Free lunch for breakfast. 1 Jersey mare, 20 years old; 2 Berkshire colts, 10 years old; 1 team mules, 1 with green hair and yellow eyeballs, the other with freckles and cross-eyes, both good lively company; 2 riding mules, heifers which use only 1 gallon of gas per 3 miles; 10 Plymouth Rock milch cows; 2 Yorkshire yearling calves, aged 15 years; 2 Durum roosters, one due to freshen; 3 old cultivators, coming in soon; 1 John Deere binder with foal; 1 riding dray; Poland China bob-sleigh; rocking chair, with one game leg; 15 foot well; a number of post holes; a green pink rabbit and one 5-quart barrel of field rabbit tracks and other articles too valuable to mention. Terms announced after the sale.—Stetler Independent.

SURVEY PARTY LEAVES FOR NORTH

The geological survey party under the direction of Dr. Allan Cameron, which will make a survey of mineral resources in the northern part of the province under the direction of the provincial government, left during the past week for their summer's work. The survey will be facilitated by the

use of photographs of the area to be covered, which were taken last year by Dominion Government photographers.

In addition to the two soil survey parties which have already gone north a third party in charge of J. L. Doughty, has gone during the past week to the area east of Lesser Slave lake where comprehensive investigations of soil types will be made.

READ THE ADVERTISEMENTS !

"The announcement by the Atlantic steamship lines of reduced rates on cabin ships coincides with the opening of an Atlantic travel season in which the cabin type of ship reaches a standard of equipment and accommodation never hitherto reached and during which more cabin ships than ever will sail to and from Europe. The advent of reduced rates also harmonizes with the policy of many world governments to abolish passport visa fees. Ocean tourist travel is quickly getting back to pre-war conditions but greatly enhanced by bigger and better ships," says William Balm, Steamship Passenger Traffic Manager, Canadian Pacific Steamships Limited.

Orders for Canadian cheese cabled from Great Britain, demonstrate its popularity overseas and the confidence placed in our grading methods, according to Doctor J. A. Ruddick, Dominion Dairy Commissioner, who states that the British demand for Canadian cheese is at the peak.

Between four and five thousand bags of Garnet wheat are being shipped from Fort William to be tested by millers in Great Britain. Reports of the reception given these samples will be available before this year's crop is ripe, government officials expect. If these prove favourable the future of this early ripening variety should be assured.

WORLD HAPPENINGS BRIEFLY TOLD

Plutarco Calles, former president and minister of war for Mexico during the recent revolt, has retired from politics.

Veterinarians of Manitoba will hold their semi-annual meeting in Brandon, July 5, during the week of the summer exhibition.

It is estimated that 22,000,000 acres will be sown to wheat in Canada this year, or 1,000,000 acres more than a year ago.

The Dominion treasury has \$75,221,160 in gold in the central gold reserves, while according to last bank statement the banks of Canada hold in their own vaults in Canada an additional \$10,000,000 in gold.

A flight by Russian aviators from Moscow to New York by way of Alaska this August is being planned by the Soviet airway commission. The plane, called the "Land of the Soviets," will be manned by four men.

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zephora Lavoie, Three Rivers, Que., writes: "Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Visitors: Well, Tommy, and how do you like school?

Tommy: Not much. You see, I'm not very fond of children.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callus comes out without injury to the flesh.

She (in car): "Don't tell me the car is out of gas."

He: "All right, then, the gas is out of the car."

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Prominent Agriculturists To Meet

Canadian Wide Gatherings Of Seed Growers and Scientists At Winnipeg

(By E. Cora Hind)

June 8 to 15, are to be important days for agriculture and livestock in Canada for during those eight days the year's work and findings of the Plant Breeders Of Canada, the Canadian Seed Growers, the Canadian Technical Agriculturists, and the Western Canada Society Animal Production, will all be discussed and action taken on such important subjects as the standardization of names of seeds of vegetables and flowers for registration and appraisal and determine the extent to which the Seed Growers Association might go in encouraging the production of field root, vegetable, garden and forage crops suitable for registration. Special interest will centre on the question of the registration of Alfalfa and other cross fertilizing crops.

From the cereal breeding committee will come a report which will be the basis of a discussion on the desirability of retaining generation numbers and special attention will be given to whether or not "number three registered" should be eliminated. It is expected that a decision will be arrived at as to the "proper" type of Marquis wheat required for registration.

The Canadian Seed Growers will have only two addresses from their own members. President H. G. B. Strange, will deal with the work generally, and Prof. T. J. Harrison, will speak on his recent trip to Europe, and the types of barley required for the British market.

The Animal Production men are bringing two world famous men whose addresses will be shared by all the organizations. These are Dr. F. A. E. Crew, Ph.D., D. Sc., professor of animal genetics, University of Edinburgh, and Dr. W. L. Williams, Professor Emeritus of Veterinary Surgery, Cornell University. The animal production section will also have as a special speaker, Dr. Alfred Savage, B.S.A., B.V.M., Animal Pathologist at the Manitoba Agricultural College, who has been working in collaboration with Dr. Williams. The Canadian Technical Agriculturists are bringing Dr. H. B. Humphrey, Pathologist in Cereal Rust Research Investigation of the United States Department of Agriculture; Dr. W. E. Grimes, head of the Department of Agricultural Economics, Kansas Agricultural College, and Dr. M. J. Dorsey, Chief of Pomology Agricultural Station, Urbana, Ill. It is doubtful if these gatherings have ever been graced by a more renowned group of specialists.

The Provincial Government of Manitoba and some of the important business bodies of Winnipeg are showing their appreciation of the importance of the gatherings by offering luncheons and dinners.

Monday night, June 10, the Provincial Department of Agriculture will give a dinner in the H. B. Co. store, when the Minister will preside and Premier Bracken will be the speaker; Tuesday, noon, the Seed Growers will be the guests of the Canadian Wheat Pool; Tuesday night, the guests of the Winnipeg Grain Exchange at the Royal Alexandra Hotel; Wednesday night, the Seed Growers and the Technical Agriculturists will be the dinner guests of the T. Eaton Company, and will be further entertained by a motor drive after dinner.

Thursday, June 13, there will be an excursion by motor to the Dominion Experimental Farm, at Morden, supper there and a return to the city by moonlight. It is hoped that a number of wives will come with their husbands to these meetings, and special entertainment is being provided for them.

The Province of Manitoba and the City of Winnipeg feel deeply honored at the opportunity afforded of entertaining such important bodies, and hopes to give them a profitable and very happy time during their stay.

"Are you off on pleasure bent?"

"Worse I'm off on pleasure broke."

Canada's First Passenger Train

Left Toronto Station On May Sixteenth, 1853

Seventy-six years ago on May 16th, at 8 o'clock in the morning, the first passenger railway train to run in Canada, pulled out of the old station nearly opposite the Queen's hotel on Front street, Toronto, and made its initial trip to Aurora, Ontario. Up to that time the only form of transportation was the old horse-drawn stage coach and the carrier's wagon. The train consisted of a 24-ton engine with 5-foot driving wheels and a 14x20 cylinder, a box car and a passenger car. Aldefman John Harvie was the conductor, and passengers had to purchase their tickets from him on the train. The fare was \$1 each way. The journey occupied two hours. The engine drawing the train was named "Lady Elgin" after the wife of the governor-general.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Foundation Of the Farming Industry

Cow Serves Mankind In More Ways Than Any Other Animal

The cow really forms the foundation of the farming industry. Not only does she supply the world with all the milk products, such as butter, cheese, milk, and cream, but almost all her flesh can be eaten, and beef is the staple meat of most countries. Her hide is used for making leather, and her hair for mixing with plaster. Glue is made from her hoofs, and gelatine powder from her joints. When everything else is removed her bones are ground into fertilizer in so many ways.

The Oil For the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Will Trek To Alberta

Another of the Hutterische Bruder Gemeinde colonies, organized near Freeman, South Dakota, by Russian immigrants about 50 years ago, will leave South Dakota when the Wolf Creek group, numbering about 150, treks to Alberta. An option on their property, comprising 5,400 acres of improved land, has been obtained by A. W. Harper, Minneapolis banker, who plans to dispose of it in tracts of 160 acres each.

How To Measure Height

To measure a tree, set a stick straight up in the ground. Use a plumb line to get it absolutely perpendicular. Measure the shadow it casts, and the shadow cast by the tree. As the shadow of the stick is to the length of the stick, so is the shadow of the tree to its height. Figure it out.

The Pessimist (proposing): "Darling, I love you. Will you be my widow?"

Use Minard's for the rub down.

SUNDAY SCHOOL LESSON

JUNE 9

THE STORY OF THE RECHABITES

Golden Text: "We will drink no wine."—Jeremiah 35.6.
Lesson: Jeremiah 35.1-19.
Devotional Reading: Psalm 107.1-9.

Explanations and Comments

Jeremiah's Test Of the Rechabites, verses 1-5. "Among the people who crawled into Jerusalem to escape the dreaded Nebuchadnezzar, was a tribe that excited much curiosity because of its strange manners. The sheik's name was Jaasaniah—he whom Jehovah hears. They refused to shelter in the houses or permanent buildings, but pitched their dusky tents in an open space within the city walls. Their record was honorable, and reached far back into the early days of Hebrew history. From the wilderness march of the Exodus the Kenites kept up friendly relations with Israel during the intervening centuries, and it was of them that the Rechabites had sprung (Judges 4.17-24; 1 Sam. 15.6; 1 Chron. 2.55.) About the time of Elijah, and perhaps through his influence, the leader of one branch of the tribe was Jonabab, the son of Rechab. He was dismayed at the abounding corruption of the Northern Kingdom, then under the fatal spell of Jezebel and Ahab. In his endeavor to save his people from such a fate, this man, afterwards Jehu's confederate in the extirpation of idolatry, bound his people under a solemn pledge to drink no wine for ever; and not to build houses, to seed, or plant vineyards, but to dwell in tents."—E. B. Meyer.

These Rechabites and their staunch adherence to the principles laid down by their ancestor, afforded Jeremiah an excellent opportunity for an object lesson. Accordingly, he led them into one of the rooms ranged around the temple courts and bowls full of wine set before them, using the large vessels from which the wine was usually poured into cups. "Drink ye wine," Jeremiah bade them. It was a severe test of their principles, for it was the prophet himself who bade them drink.

"I count life just a stuff."

To try the soul's strength on."

—Browning.

"On the shore of almost any lake you can find an allegory of human life. Farthest back from the line where the great opposing forces meet is the sand, tossed there because it is light. Then come the pebbles, which yield less readily. And finally, at the forefront, the solid rocks that the waters can neither break nor move."

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Sunspots and Rabbits

The number of pelts received by The Hudson's Bay Company from year to year since about 1840 showed marked periodic variation. According to an investigation made at the Dominion Observatory, Ottawa, the number of rabbit pelts was, on the average, three times greater one year before the minimum of sunspots than at the maximum.

Little girl to uncle, whose voluble wife has just stopped talking to take breath: "Now, Uncle Henry, you say something."

Keep Minard's in the Medicine chest.

"Daddie, can you tell me if Noah had a wife?"

"Certainly—Joan of Arc. Don't ask silly questions."

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

He: "Wouldn't you tire of seeing me at breakfast every day?"
She: "Oh, yes, but I don't get up for breakfast."

Minard's Liniment for sick animals.

Big Man: "My time is worth \$50 an hour, but I'll give you just a minute."

Reporter: "In cash, sir?"

GUM-DIPPING which saturates every fibre and every strand of every cord with pure rubber, serves the same purpose as that of a cobbler waxing his thread . . . prevents friction and multiplies strength.

This extra strength multiplies mileage, and increased mileage with no increase in price means lower cost per mile. That's why Firestone Tires give

Conditions Better In Great Britain

Great Improvement Shown In Basic Industries

"Conditions in Great Britain are materially better than they have been since the strike and there has been a great improvement in the basic industries," said P. A. Clews, European Traffic Manager of the Canadian National Railways, who has come to Canada from London on a short business trip. "There has been a marked revival in the coal trade," he said, "and the severe weather which reigned all over Europe last winter helped the British producers to regain some of their lost markets."

Last year, Mr. Clews said, the Canadian National Railways dealt with the largest freight traffic in Europe in their history. "The tourist movement to Canada is increasing astonishingly," he added. "The people in Europe are becoming more and more interested in the possibilities of spending a holiday in the Rocky Mountains, particularly in such places as Jasper National Park, which appeals greatly to their imagination."

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Forest Products Rank High

Forest products in Canada rank second to those of agriculture with an annual value of approximately \$500,000,000.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

The Desert Song

— BY —
VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.
"The Desert Song" is a Warner Bros. picture adaptation of this novel. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

CHAPTER II.—Continued

Old Hassi nodded. He remembered the night well, remembered the masked figure who had stepped into their camp and shouted defiantly, "Give me twenty of your young men who are not afraid to die! And if the law is wrong, we'll overturn the law!"

"I was only a boy indeed," continued the Red Shadow, "but I dreamed of saving the people of Morocco from injustice. When I returned to Fez, they forced me to resign from the army. I acted as if that blow had made me stupid, almost half-witted. I spent all my time picking wild flowers and so they searched high and low for the Red Shadow, never suspecting that he was the stupid, timid boy living right in their midst."

Then complications had arisen. General Fontaine died and the Red Shadow's own father, General Birabeau, was sent out from France to command the post at Fez. He had come with one purpose uppermost in his mind—to wipe out the Red Shadow. How was his son, Pierre, to meet this situation? Could he betray the people he had learned to love? He could not. And yet it was no less difficult to keep his parent from suspecting that his boy was an enemy of the French.

"So I continued to play the fool," he went on, "and I succeeded in deceiving my father. Now because he thinks I am a weakling he hates me. That is bad enough, but to see Margot despise me too! Why, I came to Morocco to show Margot I was a man!"

Back among the tents there came a scurry of excitement. A volley of guttural oaths filled the night as a dozen of the Red Shadow's men dragged in a prisoner caught by the sentry. He was thrown unceremoniously in front of the fire—five feet of insignificance dressed in bulging riding breeches fashioned out of enormous checks. It was hard to say which was the most ludicrous, his outlandish clothes, his mustache on his tiny face, pale with consternation.

Hassi drew his sword, "Let's kill him! He's a spy! I'm after blood." The stranger's squeaky voice protested, "Well, don't look at me. I'm anaemic!"

The menacing face of Hassi terrorized him.

"You can't kill me, I'm an American! I'm no spy, I'm only the society correspondent for the Paris Herald. I didn't even mean to come here. Early this morning I went out horseback riding with my

friend, Pierre Birabeau. Later he gave me the slip and I thought he had headed this way."

At this point the Red Shadow came forward. He spoke in the Riff's native tongue. What he said meant that the prisoner should be released.

CHAPTER III.

Like most girls who have read story books and believed in them Margot Bonvalet was beginning to find life a bit disillusioning when she came to actually living it. She had arrived in Fez expecting to find there all the high romance of the sentimental novel. Her Paul would be a dashing hero in his uniform of the Foreign Legion. He would sweep her into his arms and carry her away on horseback, far out into the desert, and there would be a wild courtship under the Morocco moon. But instead, she had made the disappointing discovery that Paul was first of all the soldier and only the lover when there was nothing else to interest him. His devotion to military duty made him more of a machine than a dauntless knight.

He left her alone a good share of the time and she found it necessary to rely on inconsequential flirtations with the officers or tedious conversations with General Birabeau's son, Pierre, who worshipped her at a respectful distance but who scarcely qualified as a suitor since Margot regarded him as a mollycoddle. There were no other women at the garrison except Susan, the secretary and sweetheart of Bennie Kid, the Paris Herald reporter, and Azuri, a dark-skinned native girl who was not officially one of the household but who lurked about at all hours when she might glimpse Captain Fontaine.

Margot and Susan were chatting together when Bennie returned from his desert adventure. Susan fell gratefully into his arms, then babbled him with solicitous pats and anxious questions. He waved her aside. A man could not bother himself with love when he had just risked his life among the dreaded Riffs themselves. "Bennie did you see the Red Shadow?" Susan queried.

"Yes—and what a tough guy," Bennie replied, "Why he came riding into camp on a tiger, using a rattlesnake for a whip. And because he was hungry he ordered a live cow. When it was brought in he took out his sword and cut off a slice for himself."

Susan's eyes were popping. "Raw, Bennie?"

"It was the rawest thing I ever saw done to a cow!" he assured her. Just then Pierre Birabeau appeared in the doorway. Margot hadn't missed him for Pierre always took a nap in the afternoon. To Margot he was a nice boy though somewhat of a bore. Would she not have been astonished could she have watched him a minute before when he had hastily stuffed a scarlet bur-noose into the heavily carved chest in his bedroom? Yet he had not been cautious enough, for Azuri, crouched behind a chair like some lithe animal, had seen him.

Pierre ventured timidly toward Margot and handed her a small bouquet. "See Margot, I've got some lovely wild flowers for you!"

The girl looked at him despairingly. "Wild flowers! Oh Pierre, why don't you go out and fight the Red Shadow? If only you would do one thing to make me proud of you!"

Suddenly she caught sight of Captain Fontaine coming across the court yard. When he entered she greeted him ardently.

"What luck, Paul?"

"Great luck, Margot! I nearly

caught the Red Shadow. I found his secret hiding place and I've covered it with a concealed machine gun. Next time he goes there we'll mow him down."

"Bravo!" shouted General Birabeau who had arrived in time to hear Fontaine's confident boast.

"Oh, that's great!" put in Pierre. "But father, wouldn't it be funny if he didn't go there again?"

The General did not bother to answer his son and Pierre who was well accustomed to snubs, resumed silence. His father's interest was primarily in Paul. He had been watching the progress of his romance with Margot and had noted the soldier's neglect and the girl's dissatisfaction. For the sake of his friendship for Margot's father, General Birabeau sincerely desired her happiness. He saw a way of promoting it.

"A boat of the French Line stops here tonight, Paul," he told him. "It's just finishing a Mediterranean cruise. You and Margot might take the Bridal Suite and as Governor of the Post, I can marry you."

Margot interrupted. "As the bride, don't you think I deserve to be consulted?"

Paul laughed. "You could hardly be married in that riding habit, Margot!"

Margot tossed her head. "I don't suppose you thought that we two might go riding in the desert together!"

"You see, Paul," General Birabeau told him good humoredly. "Margot hoped you'd pick her up on your horse and carry her across the hot desert sands."

Perhaps Paul's sense of the romantic was partially awakened. At any rate the plan for a hasty marriage appealed to him and he begged General Birabeau to make out his passport. Then he turned to the girl.

"Margot, I'll be back for my answer in five minutes. If it's no, I'll make you say yes!"

"There, Margot, there's romance for you!" remarked the General.

As Paul crossed the inner court, Azuri sneaked up beside him. He turned on her with a furious contempt.

"Azuri, you can't follow me like this."

She rubbed her sensuous body against him. "Lover, come with me tonight to the hills—and tomorrow morning in your arms, I will whisper to you the name of the Red Shadow!"

"I don't believe you. You don't know."

Azuri twined her arms about his neck and placed her warm dark cheek next to his. "Paul, I cannot give you up to this French woman!"

Fontaine wrenched himself free and taking the girl by the shoulders he threw her roughly to the ground. Her dark eyes flashed jealously as she rose slowly, showing her gleaming white teeth, and sneering.

"Azuri—that name means tiger claw. When she loves she loves for always and when she hates—she hates!"

And Azuri crept out toward the desert, leaving this half-muttered threat ringing in Fontaine's ear.

(To Be Continued.)

Radio Difficult To Transmit In Forest

Mysterious Barriers Exist Largely When Trees Are Sappy

When radio messages are received with comparative ease in the Arctic, and the long and short waves of electrically energized ether are received in mines deep underground, it is startling to find that difficulty is encountered in establishing radio communication in the forest. There are mysterious barriers that exist in the forest, the transmission of radio energy being affected to an unknown extent by what is called the absorption of trees. This seems to occur in spring, summer, and fall when the trees are sappy. With all the advances made by radio, it is still necessary for the protectors of our forests to use the telegraph and telephone.

Might Try It Once

Opening a family Bible, a Minneapolis man found a \$100 note seventy-five years old, and still worth its face value. Thus encouraged, I imagine a lot of people will open their family Bibles at least once every seventy-five years, just on a chance.

To Explore Baffin Land

Donald MacMillan To Head Expedition To Northern Lands

Donald B. MacMillan, explorer in an address has briefly outlined plans for his projected expedition into the Arctic this summer.

The schooner Bowdoin will leave from Wiscasset Harbor, June 22.

The summer will be devoted to exploration of unknown spots in Labrador and Baffin Land. He expects to return in September.

The party will work among the Nascope Indians, whose hostility to white men was overcome on a previous expedition, when they were assisted through a period of famine. Plans include a study of the great ice cap in Baffin Land, of which little is known. Commander MacMillan said.

A Strange Cargo

One of the strangest cargoes ever to be shipped on an aeroplane arrived at Croydon airport recently. When the large air freighter pulled up at the hangars, the load inside proved to be twelve monkeys, and a baby bear. They were shipped to a private animal dealer in London, from the East Indies, the distance from Amsterdam to Croydon being covered in the air freighter.

Love is blind. That's why a man in love is unable to distinguish between an angel and a goose.

Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Broad, ceiling-high sections of Gyproc can be nailed directly to joists and studding—easy construction with a minimum of labor.

Beautiful decorative effects can be obtained by applying Alabastine, paint, paper or panels right over Gyproc walls and ceilings.

WORLD'S FAMOUS THREE FUEL HART PARR
In special tests conducted by nationally known engineers who
used cheap distillate fuel the great Hart Parr 18-36 registered a
draw bar pull of 5,535 pounds at 2 miles per hour and 4,075 pounds
at 3 miles per hour. On the belt it easily pulled the amazing load
of 43 horse power. The Hart Parr is a three fuel tractor and will
burn gasoline, kerosine or distillate equally well. It is the one
tractor that develops its power from the cheapest low grade fuel.
Hart Parris are made for small, medium or large farms and have
three forward speeds to speed up hauling and field work. Drive
yourself and experience the thrill of controlling tremendous power.

SECOND FORTNIGHTLY CROP REPORT

Seeding of wheat has been practi-
cally completed over the province and
approximately seventy-five per cent of
the acreage intended for oats and
barley has been sown, according to
telegraphic reports received by the De-
partment of Agriculture on Monday.
Work has been retarded to some ex-
tent in a number of districts in the
south, but the remainder of the wheat
acreage will be sown within the next
few days.

Conditions in a number of northern
and central districts have been materi-
ally improved by rains during the
past week, and little concern is felt
over general crop prospects from the
moisture standpoint. Germination has
been uniformly good and much of the
early sown wheat is making rapid pro-
gress. Warm weather is required to
promote continued growth, especially
in areas where seeding has been de-
layed by a heavier than usual pre-
cipitation.

The season has been somewhat un-
favorable for the early destruction of
weeds as growth has been too slow
to permit of much eradication by sur-
face cultivation prior to seeding. Some
localities report a considerable in-
crease in the acreage of grain stub-
bled in, and this undoubtedly will be
reflected in greater difficulty in deal-
ing with the weed situation in follow-
ing years.

Pastures are making satisfactory
growth and livestock is in good con-
dition. Shearing of farm flocks is ex-
pected to start shortly and under
range conditions a start will be made
within the next few weeks. Some los-
ses have been reported in the lamb
crop on the range as a result of snow
and rain during the lambing season.

LABOR PLACEMENTS INDICATE INDUSTRIAL GROWTH

Indicative of the industrial growth
in Alberta during the last year is the
preliminary report submitted during
the past week by Walter Smitten, the
Commissioner of Labour. Total place-
ments through the provincial employ-
ment service numbered more than 2000
over the previous year's figures. Em-
ployees under the Factories Act in
the male section increased by 24 per
cent, and in the female section by 32
per cent over the preceding year.

Of vacancies for males reported 99.2
per cent were filled and of male appli-
cants 89.2 per cent were placed, cor-
responding figures for female employ-
ment being 84.2 per cent and 90.6 per
cent.

Who Does Your Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.
